

Class 55

Terrain Model Kit

What is a Terrain Model Kit?

A Terrain Model Kit is a portable map set you use to setup a model of the terrain you'll be covering during your mission. It has to have everything you need for every type of mission, as well as additional pieces that help you to model obstacles and terrain features you expect to see.

How to get your TMK ready...

1. Laminate the Identifying Markers (**See Below on Pg.2 of this Document**)
 - A. Printout **Annex 1 - Terrain Model Kit.pdf** (Make 2 copies, total 4 pages)
 - B. Cut out each shape
 - I. Cut tightly and neatly around outlines of shapes
 - C. Laminate all pages (After shapes have been cut)
 - D. Superglue a penny to the back of each marker
 - I. This will serve as a weight
 - E. Place both sets of markers in a **“Heavy Duty Quart Ziploc Bag”**

LOA – Line of advance	LOD - Line of Departure	AA – Assembly Area
